

What Do Your People Have In Common With These Fellow YPO Members?

Mark Sneed, Age 50, Heart Attack

Paul Murin, Age 62, Heart Attack

Ben Forston, Age 55, Heart Attack

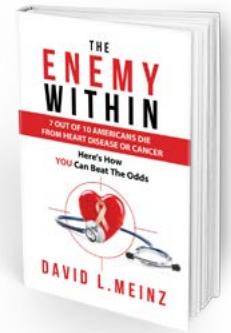

**They Thought Everything Was Fine Too.
Then They Died.**

Did you know **THE MOST COMMON FIRST SYMPTOM** of Cardiovascular Disease is sudden death? If one of your YPO Members was suddenly gone, how would it impact their company? What would it mean to their family?

The Current Approach to Heart Attack Prevention Allows Too Many People To Have A False Sense of Security (Especially Those On Cholesterol Medications).

A VERY SPECIAL YPO EVENT: International speaker and author David Mainz, MS, RDN, FAND, CSP presents "The Enemy Within" and the latest research-based **NEW APPROACH** to preventing the #1 cause of premature death; information that's **NOT YET PRACTICED** by physicians and even cardiologists. This event can save the life of one or more of your members. Here's what other YPO chapters are saying:

“ You will be pleased to know the members rated your presentation the HIGHEST OF ALL the EDUCATIONAL EVENTS IN THE ENTIRE YEAR. ”

Steven Palmer, Atlantic Chapter, YPO

“ Your ratings were the highest given so far this year; ALMOST HITTING A PERFECT “10.” We had one of the best turnouts we have seen in the last several years. ”

Kevin Kervick, Connecticut River Valley Chapter, YPO

“ Your program was highly rated and well received. Many friends ended up having follow up tests ... which I think IS A VERY GOOD THING. ”

Concho Minick, Ft. Worth-YPO

“ A great event and wonderful kickoff to our year. Relevant, entertaining, and with the potential to SAVE LIVES. I highly recommend David's program to other chapters. ”

Charles Vogel, Chicago YPO
